

# TCS iON Phygital Model

Digital Programs – IT/ITES

# Learning programs in emerging technologies

S#	Learning programs
1	Data Analytics and Reporting
2	Machine Learning for Real-World Application
3	Applied Cloud Computing
4	Augmented Reality Development and its Applications
5	Intelligent Game Design and its Applications
6	Practical Approach to Cyber Security
7	Advanced Cyber Security - An application approach
8	Artificial Intelligence for Real-World Application
9	IoT and its Applications using Raspberry Pi
10	Practical Approach to Data Mining and Analytics
11	Social Media and Text Analytics

## Eligibility

B.E./B.Tech/BCA/B.SC/any other relevant discipline (circuit and non-circuit streams)

## Delivery mode

Blended with self-based learning and digital Live lectures

## Duration

90 hours + 125 hours project work (remote internship) - *access to industry projects with mentor support*

## Batch schedule

Pre-defined batch calendar / customized batches can be scheduled\*

*Designed by academic and*

*Industry aligned; job*

*Powered by robust digital*

*TCS Brand Recognition*

# Product Construct (Applicable to all courses)

## Learning

- Synchronous Digital live lectures ( 15 lectures of 1.5 hr. each ) | lecture per week
- Asynchronous – digital learning resources

## Tutorial/ Mentoring

- 15 hrs of community based mentoring
  - Academic community
  - Industry connect community

## Practical

- Asynchronous 1-2 mini assignment
- ~30 hrs. of practice
- Virtual lab integrated
- Mentor support provided by community forum
- Addition **45 hrs** of industry project offered via **Remote Internship Opportunity**

## Other USPs

- Aligned to credit system prescribed by UGC
- Option to take NQT for enhancing employability
- Access to job listing platform

# Student Persona

**Tina**

Is a prospective student

- Btech graduate (any stream)/BCA
- May be pursuing Btech /BCA (5 or 6 or 7 semester)
- Seek value add certificate that will add value to the pursuing qualification or complementary
- Professional aspiring to reskill or cross skill in new age technologies

## Student's Journey | Enrolment to employment

She selects a course

Admit card is issued for entrance exam. Assessment is conducted. Based on cutoff she is tagged to a course of her interest

She receives the activation code to activate the course

Tina activates and launches the course

In week 1 she attends a live onboarding session and becomes familiar with the course construct and expectation

Gets access and works on RIO project for 2 weeks (has no weightage on final certificate)

In 16<sup>th</sup> week She will appear for the final assessment/ NQT

In 15<sup>th</sup> week Tina appears for mock assessment.

End of 15 week she submits her assignment. ( has no weightage on final certificate)

Week 2 to week 14 learning begins. Consumes digital learning content, virtual classes, virtual lab and communities for collaboration.

Gets Certificate ( takes 3 weeks post final exam)

Gets access to job listing platform.

She is enrolled as TCS ion Alumni

### Assumptions:

- Enrollment via institute only
- One student one course tagging

# IHC | Data Analytics & Reporting

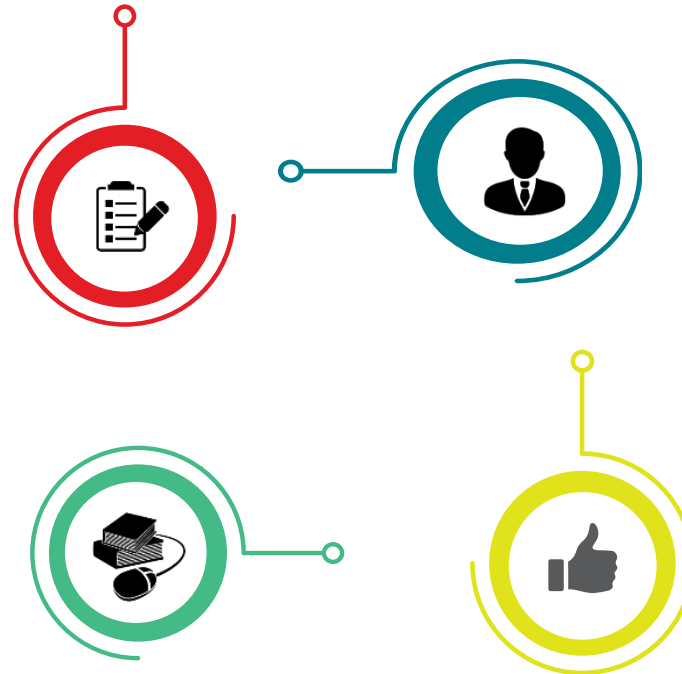

According to Grand View Research, the global data analytics outsourcing market size was valued at \$2,006 million in 2017 and is expected to grow at a Compound Annual Growth Rate (CAGR) exceeding 22.8% from 2018 to 2025.

## Course Coverage

- Course provides students with an introduction to data, the various steps involved in data preprocessing, and the tools used to analyze data.
- Use of tools and techniques to analyze data properties and use different ways of reporting data
- Course helps students to derive insights from the data based on machine learning models and create reports

## Hands-On Details

- Virtual hands-on environment is integrated within the course.
- Student will have Hands-on Practical, Assignment and Summative Assessment within the environment

**Academic Partner: IIT Patna**

**Industry Partner: IIT Patna**

## Job Roles

- Data Analyst
- Data Modeler
- Junior Data Scientist

## Pre – Requisites :

- Basic knowledge of programming and Data Structures Algorithms
- Basic knowledge of Mathematics and Statistics

Know More:

[Data Analytics and Reporting | TCS iON Industry Honour Certification \(tcsionhub.in\)](https://tcsionhub.in)

# IHC | Machine Learning for Real World Applications

Machine Learning market size is expected to grow to \$8.81 billion worldwide by 2022 at a Compound Annual Growth Rate (CAGR) of 44.1% during the forecast period (2019-2024)

## Course Coverage

- Course that teaches the basic and advanced concepts of Machine Learning
- State-of-the-art course helps in knowledge building in Python Program environment
- Supported by industry relevant business case studies

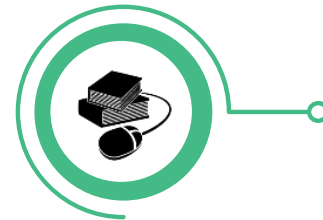

## Hands-On Details

- Virtual hands-on environment is integrated within the course
- Hand-on Industry Assignment and Summative Assessment

**Academic Partner: IIT Jodhpur**

**Industry Partner: TCS**

## Job Roles

- Software Engineer
- Software Developer
- Machine Learning Designer
- Data Scientist
- Computational Linguist

## Pre- Requisites

- Basic knowledge of programming and Data Structures Algorithms
- Basic knowledge of Mathematics and Statistics

## Know More:

[Machine Learning for Real-World Application | TCS iON Industry Honour Certification \(tcsionhub.in\)](https://tcsionhub.in)

# IHC | Applied Cloud Computing

There will be more than a million cloud computing job roles in India by 2022

-A report by Great Learning

## Course Coverage

- The course helps to understand cloud computing and teaches to store, manage, process, share and collaborate on data and information with high speed and accuracy. .
- learners will get the latest technological changes from local servers to using the network of remote servers.

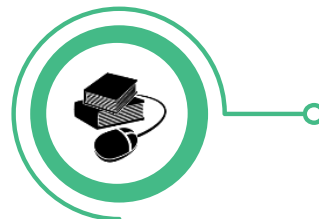

## Hands-On Details

- The projects would entail hands on using their own AWS/Azure account

**Academic Partner: IIT Dhanbad**

**Industry Partner: TCS**

## Job Roles

- Cloud Junior Developer
- Cloud Software Engineer
- Cloud Architect

## Know More:

<https://learning.tcsionhub.in/courses/industry-honour-certification/cloud-computing/>

## Pre-Requisites:

- Basic concept of DBMS

# IHC | Augmented Reality and its Applications

Global Market Insights estimates that the AR market will jump past \$50 billion by 2024, driven by adoption in retail, automotive, medical, and other industries looking to boost operational efficiency

## Course Coverage

- Detailed understanding of the concepts of AR and development of AR apps particularly with regards to Spark, Unity and Blender platforms
- Course designed as per the latest industry trends to build AR apps for enhanced user experience

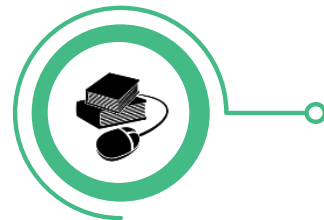

**Academic Partner: UPES Dehradun**

**Industry Partner: TCS**

## Hands-On Details

- Individual/student license of Unity software platform is used to complete hands-on activities

## Job Roles

- Unity Developer
- Interaction Designer
- Gameplay Engineer
- AR Programmer
- AR APP Designer

## Pre – Requisites :

- Basic knowledge of programming and Data Structures Algorithms
- Basic knowledge of Mathematics and Statistics

Know More:

<https://learning.tcsionhub.in/courses/industry-honour-certification/augmented-reality/>

# IHC | Augmented Reality and its Applications

# IHC | Practical Approach to Cybersecurity

The cyber security market in India is expected to grow from USD 1.97 billion in 2019 to USD 3.05 billion by 2022, at a Compound Annual Growth rate (CAGR) of 15.6%  
-PwC

## Course Coverage

- Proficiency in cyber security
- Guidance on cyber security trends
- Industry best practices, protective measures against cyber threats

## Hands-On Details

- Integrated virtual hands-on environment

**Academic Partner:** IIT Kharagpur

**Industry Partner:** Synergy Systems

## Pre – Requisites :

- Basic knowledge of programming and Data Structures Algorithms

## Job Roles

- Information and Security Analyst
- Junior Penetration Tester
- Network and Computer Systems Administrator

## Know More:

<https://learning.tcsionhub.in/courses/industry-honour-certification/practical-approach-to-cyber-security/>

# IHC | Advanced Cyber Security : An Application Approach

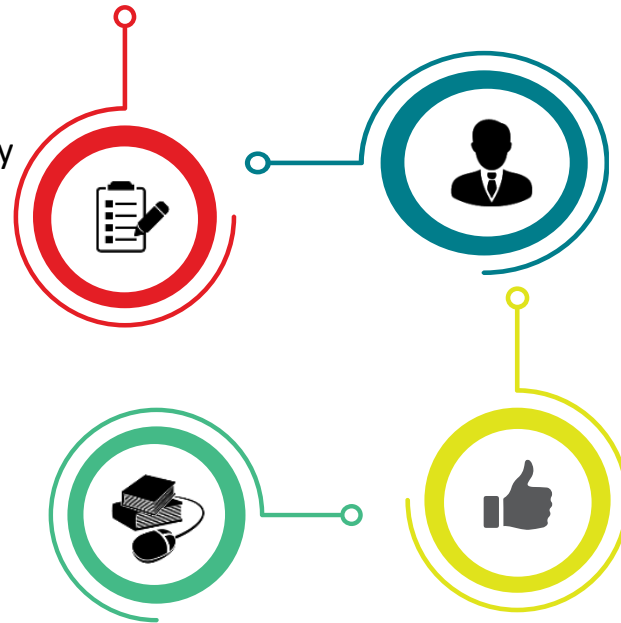

The cyber security market in India is expected to grow from USD 1.97 billion in 2019 to USD 3.05 billion by 2022, at a Compound Annual Growth rate (CAGR) of 15.6%  
-PwC

## Course Coverage

- Application security, secure software development life cycle
- Implementing security in the Software Development Life Cycle (SDLC) phase
- IT strategy management, business continuity planning, planning defense mechanism against cyber attacks
- Information security standards, information security policy management, access control management and the objectives of security control

## Hands-On Details

- Integrated virtual hands-on environment

**Academic Partner: NEILIT Patna**

**Academic Partner: Synergy Systems**

## Pre – Requisites :

- Basic knowledge of programming and Data Structures Algorithms

## Job Roles

- Information Security Manager
- Project Manager
- Information Security Project Manager
- Software Product Development Manager

## Know More:

<https://learning.tcsionhub.in/courses/industry-honour-certification/cyber-security-advance/>

# IHC | Artificial Intelligence for Real World Application

Artificial Intelligence will pave the way for close to 2.3 million Machine Learning jobs globally by the year 2020 – Report from Gartner.

## Course Coverage

- Course will help students to understand Artificial Intelligence (AI), Machine Learning (ML), Deep Learning (DL)
- Course is offered in phygital mode which includes lectures, hands-on learning and industry inputs
- Python 3.x and its associated packages will be used to implement the AI/ML concepts and algorithms

## Hands-On Details

- Virtual hands-on environment is integrated within the course
- Student will have Practical, Assignment and Summative Assessment within the environment

**Academic Partner:** IIT Jodhpur

**Industry Partner:** TCS

## Job Roles

- Artificial Intelligence Junior Developer
- Artificial Intelligence Assistant System Engineer

## Pre – Requisites :

- Basic knowledge of programming and Data Structures Algorithms
- Basic knowledge of Mathematics and Statistics

## Know More:

[Artificial Intelligence for Real-World Application | TCS iON Industry Honour Certification \(tcsionhub.in\)](https://tcsionhub.in)

# IHC | IoT and its Applications using Raspberry Pi

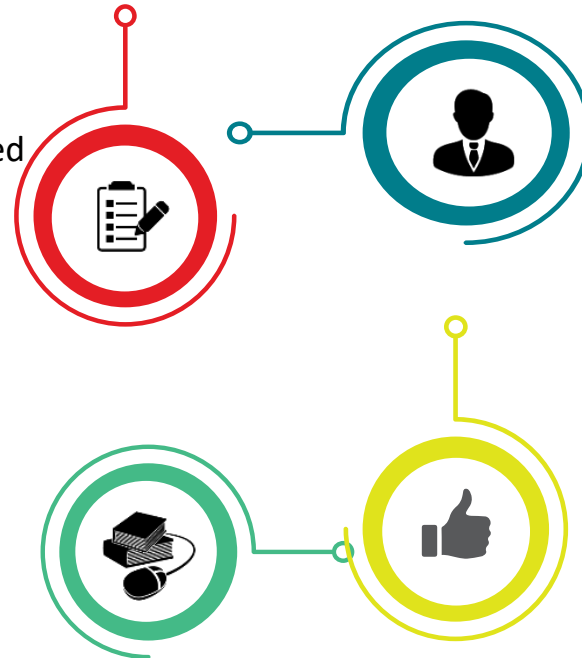

The Global Internet of Things (IoT) Market was valued at USD 826.25 Million in 2019 and is projected to reach USD 3,281.55 Million by 2027, growing at a CAGR of 19.98% from 2020 to 2027

## Course Coverage

- Raspberry Pi and sensor interfacing
- Connecting Raspberry Pi with the server backend through various interfaces and protocols
- Design and develop a real-world sensor based IoT system using Raspberry Pi
- Connect multiple Raspberry Pi microcontrollers and sensors to a single backend for transferring data to cloud platforms

## Hands-On Details

- Hands-on activities using Raspberry Pi kit

**Academic Partner:** IIT Jodhpur

**Industry partner:** TCS

## Job Roles

- Programmer
- Test Engineer
- Consultant

## Pre – requisites:

- Good knowledge of C Programming language and JavaScript
- Basic knowledge of Sensors (optional)

## Know More:

<https://learning.tcsionhub.in/courses/industry-honour-certification/iot-and-its-applications-using-raspberry-pi/>

# IHC | Practical Approach to Data Mining and Analytics

By 2022, India will face a shortfall of 2,00,000 analytic data experts.- as per TeamLease Services

## Course Coverage

- The course explains the process of identifying and discovering hidden patterns and information in a large dataset
- learners will learn data mining skills, tools and techniques in analytics, statistics and programming

**Academic Partner: IIT Dhanbad**

**Industry Partner: TCS**

## Job Roles

- Data Analyst
- Data Scientist
- Business Analyst

## Hands-On Details

- A virtual hands-on environment is integrated within the course.

## Pre- Requisites

- Basic knowledge of programming and Data Structures Algorithms
- Basic knowledge of Mathematics and Statistics

## Know More:

<https://learning.tcsionhub.in/courses/industry-honour-certification/data-mining-analytics/>

# IHC | Social Media and Text Analytics

Global text analytics market was valued at US\$4.65 billion in 2018 and is expected to reach a value of US\$12.65 billion by 2024 at a Compound Annual Growth rate (CAGR) of 17.35% over the forecast period (2019-2024)

## Course Coverage

- Course that aims to provide a fundamental training on modern text processing technologies such as topic modeling and clustering and its real-world application
- Course is carefully crafted to meet contemporary industry and research needs
- Course demonstrates how to use text and analytics on social media data

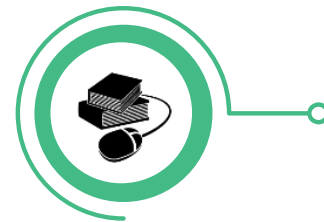

## Hands-On Details

- Virtual hands-on environment is integrated within the course
- Student will have Practical, Assignment and Summative Assessment within the environment

**Academic Partner: IIT Kharagpur**

**Industry Partner: TCS**

## Job Roles

- Data Scientist
- Data Analyst
- Researcher

## Pre – Requisites :

- Basic knowledge of programming and Data Structures Algorithms
- Basic knowledge of Mathematics and Statistics

## Know More:

# TCS iON Phygital Model

Digital Programs – Graphic  
Designing & Animation (Toonz  
Academy)

Industry Partner – Disney (TBA)

# Certificate in Graphic Designing 101

Offered By:

## About the Program

Get started on a career of graphic designing and publication designing

By the end of the program , learner will be able to:

- Explore and learn to execute the process of graphic designing
- Work on Publication designs
- Work on Print design for signages and advertisements

**Skill Gain:**

Graphic Designing | Advertisement Designing | Vector Graphics | Adobe Illustrator

## Who Should Attend?

Candidate with minimum 12<sup>th</sup> standard certificate.

## What will you get?

# 4 Mini Projects

# 5 Assessments

# 25 Live Lectures

# 12 hrs. Mentoring Support

## Product Features:

- Internship Linked program
- Equal emphasis on conceptual learning and hands-on skilling.
- Interaction with academic and industry SME
- Access to software for hands- on exercise
- Job assistance support facilitated via access to job listing platform
- Industry recognized certificate post successful completion and portfolio development

Price : ₹TBD/- (taxes included)

## Important Dates

- Registration Start Date: TBD
- Batch Start Date: TBD

**Course Format:** Online (Self-paced + Live Lecture + Hands-on Learning with Designing Software)

**Language of Instruction:** English

**Academic Partner :** Visual Wizards Academy Pvt Ltd (Toonz Academy & Ri8 Brain)

**Industry Partner :** Disney ( TBD)

**Prerequisites:** Computer System & Basic Knowledge of computer system

**Course Duration:** 50 hours + 12 hours Internship

## Type of Job Opportunities :

- Junior Graphic Designer
- Digital Graphics Artist

For More information visit:

# Certificate in Graphic Designing 201

Offered By:

## About the Program

Master the skills in graphic designing to build brand, publication, social media, and other corporate designs

By the end of the program , learner will be able to:

- Explore and learn to execute the process of graphic designing
- Work on Brand & Corporate Designs
- Work on Publication & Social Media design
- Design Graphics for apparels and sports/packaging
- Design UI/UX for eLearning content

Skill Gain:

Graphic Designing | Advertisement Designing | Social Media Designing | Adobe Illustrator | Adobe Photoshop

## Who Should Attend?

Candidate with minimum 12<sup>th</sup> standard certificate.

## What will you get?

# 6+ Mini Projects

# 7 Assessments

# 25 Live Lectures

Mentoring Support

## Product Features

- Internship Linked program
- Equal emphasis on conceptual learning and hands-on skilling.
- Interaction with academic and industry SME
- Access to licensed software for hands-on exercise
- Job assistance support facilitated via access to job listing platform
- Industry recognized certificate post successful completion and portfolio development

Price : ₹TBD/- (taxes included)

## Important Dates

- Registration Start Date: TBD
- Batch Start Date: TBD

Course Format: Online (Self-paced + Live Lecture + Hands-on Learning with Designing Software)

Language of Instruction: English

Academic Partner : Visual Wizards Academy Pvt Ltd (Toonz Academy & Ri8 Brain)

Industry Partner: Disney (TBD)

Prerequisites: Computer System & Basic Knowledge of computer system

Course Duration: 50 hours + 25 hours Internship

## Type of Job Opportunities :

- Graphic Designer
- DTP Artist

For More information visit:

# Certificate in Game Development on Unity

Offered By:

## About the Program

Get started on an exciting career of game development. Master the Unity 3D platform for game development

By the end of the program , learner will be able to:

- Get started on the Unity 3D platform
- Create 2D games in Unity 3D
- Create 3D Games in Unity 3D

Skill Gain:

Game Development | 2D & 3D Games | Game Environment Design | Animation | Programming for Games | Unity 3D

## Who Should Attend?

Candidate with minimum 12<sup>th</sup> standard certificate.

## What will you get?

# 8+ Mini Projects

# 8 Assessments

# 25 Live Lectures

Mentoring Support

## Product Features

- Internship Linked program
- Equal emphasis on conceptual learning and hands-on skilling.
- Interaction with academic and industry SME
- Access to licensed software for hands- on exercise
- Job assistance support facilitated via access to job listing platform
- Industry recognized certificate post successful completion and portfolio development

Price : ₹TBD/- (taxes included)

## Important Dates

- Registration Start Date: TBD
- Batch Start Date: TBD

Course Format: Online (Self-paced + Live Lecture + Hands-on Learning with Designing Software)

Language of Instruction: English

Academic & Industry Partner : Visual Wizards Academy Pvt Ltd (Toonz Academy & Ri8 Brain)

Industry Partner: Disney (TBD)

Prerequisites: Computer System & Basic Knowledge of computer system

Course Duration: 50 hours + 25 hours Internship

## Type of Job Opportunities :

- Unity Game Developer
- Unity Lighting Artist

For More information visit:

# Certificate in Motion Graphics

Offered By:

## About the Program

Students will be able create elements required for motion graphics and will have good exposure in creating motion graphics animations.

By the end of the program , learner will be able to:

- Create Motion graphics videos
- Create Explainer & Educational Content videos
- Create Signature animation, titling animation and motion posters

## Skill Gain:

Design Elements | Use of Graphics | 2D and 3D Compositing | Adobe Encoder | Animation | Camera & Light Settings

## Who Should Attend?

Candidate with minimum 12<sup>th</sup> standard certificate.

## What will you get?

# 6+ Assignments

# 8 Assessments

# 25 Live Lectures

Mentoring Support

## Product Features

- Internship Linked program
- Equal emphasis on conceptual learning and hands-on skilling.
- Interaction with academic and industry SME
- Access to licensed software for hands- on exercise
- Job assistance support facilitated via access to job listing platform
- Industry recognized certificate post successful completion and portfolio development

Price : ₹TBD/- (taxes included)

## Important Dates

- Registration Start Date: TBD
- Batch Start Date: TBD

**Course Format:** Online (Self-paced + Live Lecture + Hands-on Learning with Designing Software)

**Academic & Industry Partner :** Visual Wizards Academy Pvt Ltd (Toonz Academy & Ri8 Brain)

**Industry Partner :** Disney (TBD)

**Prerequisites:** Computer System & Basic Knowledge of computer system

**Course Duration:** 50 hours + 25 hours Internship

## Type of Job Opportunities :

- Motion Graphics Artist for Advertising
- Motion Graphics Artist for Video production

For More information visit:

<https://learning.tcsionhub.in/courses/ve/manufacturing/cnc-milling/>

# Certificate in 3D Asset Creation for Games using Maya

Offered By:

## About the Program

This course will impart knowledge to students and take them from a beginner level to intermediate level in creating 3D assets for game development and AR/VR requirements.

By the end of the program , learner will be able to:

- Understand the requirements of the gaming
- Cater to AR/VR and animation industry requirements from designers
- Create props and background for games
- Create complete 3D models based on requirements

## Skill Gain:

Game Prop Designing| Environment Designing| Packaging assets for various game platforms| Autodesk Maya software

## Who Should Attend?

Candidate with minimum 12<sup>th</sup> standard certificate.

## What will you get?

# 5+ Mini Projects

# 5 Assessments

# 25 Live Lectures

Mentoring Support

## Product Features:

- Internship Linked program
- Equal emphasis on conceptual learning and hands-on skilling.
- Interaction with academic and industry SME
- Access to licensed software for hands- on exercise
- Job assistance support facilitated via access to job listing platform
- Industry recognized certificate post successful completion and portfolio development

Price : ₹TBD/- (taxes included)

## Important Dates

- Registration Start Date: TBD
- Batch Start Date: TBD

Course Format: Online (Self-paced + Live Lecture + Hands-on Learning with Designing Software)

Language of Instruction: English

Academic & Industry Partner : Visual Wizards Academy Pvt Ltd (Toonz Academy & Ri8 Brain)

Industry partner: Disney (TBD) :

Prerequisites: Computer System & Basic Knowledge of computer system

Course Duration: 50 hours + 25 hours Internship

## Type of Job Opportunities :

- 3D Modeler/Asset Artist
- Asset Creator for AR/VR

For More information visit:

# TCS iON Phygital Model

Digital Programs – Tata Strive

# BFSI- Business Development Executive

Offered By:

## About the Program

Master the skills to convince and help the customer make an informed purchase decision of a banking product

By the end of the program , learner will be able to:

- Differentiate between the various banking products and policies
- Use a structured sales process to help customers make informed purchase decisions
- Demonstrate some of the best practices of ongoing and post sales service
- Enhance their employability by demonstrating grit, decision making abilities and interview readiness

**Skill Gain:** Sales process, Product knowledge , Objection handling, Negotiation skills

## Who Should Attend?

- Graduates
- Working professionals who want to up-skill or cross skill

## What will you get?

# 4 Assignments

# 6 Assessments

# 180 Live Lectures

# 100 hrs. Mentoring Support

Access to 60 hrs. of YDM

### Product Features:

- Job linked program
- Holistic program with equal focus on soft skills such as teamwork, grit, growth mindset along with technical skills
- Hands-on practice on structured sales process
- Job assistance support facilitated via access to job listing platform
- Industry recognized certificate post successful completion

Price : ₹ TBD/- (taxes included)

## Important Dates

- Registration Start Date :
- Batch Start Date:

Course Format: Blended

Language of Instruction: English

Academic Partner: Tata STRIVE

Industry Partner: Tata Capital

Pre – Requisites: None

Course Duration: 3 months

Program Outcome: Job Linked

## Type of Job Opportunities

- Business Development Executive
- Loan officers

For More information visit:  
Microsite Link : Coming soon

# TCS iON Phygital Model

Digital Programs – Apollo  
Medskills.

# Hospital Operations Executive

Offered By:

## About the Program

This course will help them build their career as a customer relations executive, patient services executive, outpatient services executive and inpatient services executive.

By the end of the program , learner will be able to:

- Basics of hospital management
- Types of hospitals
- Inventory management
- Planning and organising daily activities
- Biomedical waste terminology
- Exposure to pandemic and epidemic management Workplace safety adherence

## Who Should Attend?

- 10+2, Diploma, Graduate
- GNM and BSc Nurses are also eligible for the course

## What will you get?

# Assignments # 10 Assessments # 150+ Live Lectures # 100 hrs.. Mentoring Support Industry linked

## Sales USP:

- Holistic blend of concept, context and tools training
- Interaction with academic and industry SME
- Access to various tools to enable hands on skills in accounting practices
- Access to Best-in-Class infrastructure for hands- on skills
- Job assistance support facilitated via access to job listing platform
- Industry recognized certificate post successful completion

Price : ₹ 21,830/- (taxes included)

## Important Dates (Tentative)

- Registration Start Date: 15<sup>th</sup> June 2022
- Batch Start Date: 1<sup>st</sup> July 2022

Academic Partner: Apollo MedSkills Limited

Course Format: Online (Self-paced + Live Lecture + Hands-on-Learning)

Language of Instruction: English

Course Duration: 250 Hrs

Program Outcome: Job Linked

Certification: Certification from Apollo MedSkills

## Type of Job Opportunities

Healthcare Administrator  
Potential Career Path  
Operations Manager  
Quality Consultant
